

# *Sponsor a Well for \$350 — Change 1-3 Families' Lives*

## *Clean Water Changes Lives*

In many SE Asian villiages, clean water is not easily accessable. As a result, families must travel great distances every day to obtain water. Others have to buy bottled water on a very limited budget.

Our mission is to help empoverished SE Asian women and children have better lives. Clean water is central to their health, for drinking, cooking and cleaning. Clean water also allows families to plant vegetable gardens and raise small live-stock to supplement their diet. When families have clean water, they are health-ier so the kids don't miss school nor parents miss work because of illness. This improves their economic present and future.

## *What Do You Get for Your Well Sponsorship?*

For each \$350 donation, you will make a difference. Our trusted local coordinators determine the most beneficial location for the well. They coordinate all the efforts to get the well built. It only takes a few days from start to finish.

Your message will be printed on a sign on the well — your name or in memory/hon- or of a loved one (great for birthday, holiday or anniversary gifts).

If we visit the well, we'll take a picture for you. Or if you're on our tour you can take the picture and meet some of the families it benefits.

## *How to Donate a Well*

Go to [TWCCTW.org](http://TWCCTW.org) and click on the “donate” button. Then email us what you want on your plaque (limit 100 characters).
