Message from our President

Imagine going through life never having a chance to live your dream and share your gifts with the world?

So many of those less fortunate never do. TWCCTW's quest is to give as many children and women in need the opportunity to spread their wings and fly.

Since 2008 small groups of professional speakers from around the world travel to SE Asia to speak, serve, and experience the culture.

We host leadership conferences to raise money to donate to local projects that fit our criteria.

Throughout this report, you'll learn more about the exciting projects we're involved in.

Like most non-profit organizations, COVID severely impacted our financial resources since we were unable to travel to raise funds. This means we need to rely on our trusted and generous donors, to continue to support us.

We are grateful and appreciate your generous help and support over the last 10 years. It's only thanks to you that we can help support women and children in need.

As co-founder, Jana Stanfield reminds us, "we cannot do all the good that the world needs, but the world needs all the good that we can do."

WE'RE ON A MISSION

To empower and educate women and children in Southeast Asia.

OUR WORK

How we choose the causes and project we support...

They must fit within our mission to empower and educate less fortunate children and women in SE Asia.

Over the years we've learned through trial and error, to identify and support "champion" projects that provide children and women opportunities to build confidence, competence, character, and most important, sustainability.

What these "champions" have in common is commitment, tenacity, and passion to provide a better life for those in need.

OUR CHAMPIONS

- Speak English.
- Are fiscally responsible and transparent.
- Strive to create sustainability to depend less on outside resources.
- Are religiously inclusive.
- Are compassionate leaders.

Our overall focus is on social enterprise... helping children and women gain skills to better their lives, family, and community.

TWCCTW Project:

Dental Program in Rural Cambodia

Together We Can Change The World (TWCCTW) has provided a grant to the Cambodia Community Dream Organization(CCDO), to establish a dental program for school children in rural Cambodia near Siem Reap.

The grant benefits more than twenty primary schools and over 5,000 children.

TWCCTW Board Member, Steve Tillis, a retired dentist, screened over 120 children. 80 percent had visual dental decay, and a significant number were in pain.

The first part of the program involves establishing a dental hygiene program in the schools. Teachers are trained to teach and provide preventative dental hygiene.

The students are taught about the need for good oral hygiene. Each school day the students, under supervision, brush their teeth with toothbrushes provided through the grant.

The second part of the program is dental screening by a trained dental professional at each school. Children who are in pain or have severe dental needs are taken to the Siem Reap Hospital Dental Clinic for the necessary dental treatment.

This dental program has been a tremendous success in eliminating dental pain and establishing a preventative dental hygiene program to help eliminate future dental disease and keep children from becoming dental cripples at a young age.

Clean Water Water Wells

Each water well & filter provides a family and its immediate neighbors with easily accessible, hand pumped, clean water. Prior to installing water wells, village families - mostly women and children, would have to collect dirty water from stagnant pools or contaminated streams.

To date, we have provided over 1,500 water wells to date, serving 11,000 people.

Family Story

Mr. Ton Toib is 23 years old and lives with his wife, daughter and parents in Plung village, Leang Dai commune, Angkor Thom district, Siem Reap province.

Mr. Toib is a farmer; he has a small land for farming. He and his family often have financial difficulties as farming yields an income of less than 2 \$ per day. Due to the financial pressures on the family, Mr. Toib's wife is helping to generate income by helping the other nearby who need extra help in village.

2021 Annual Report

Our latest projects include...

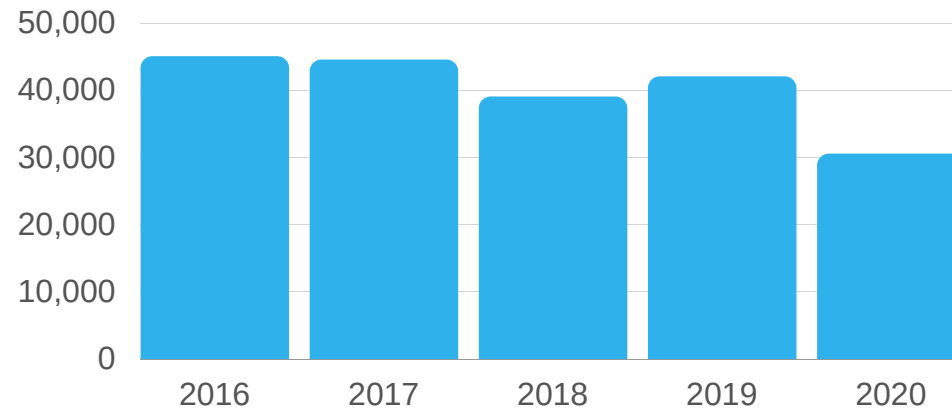

Starting four technology centers in Myanmar, Malaysia and Cambodia to teach marketable skills.

Over the past 5 years in Kuala Lumpur, Malaysia, we've partnered with Cisco, to develop a meaningful curriculum to enable 500 refugee children go to school every day. The addition of the technology center offers the children more practical skills.

OUR IMPACT

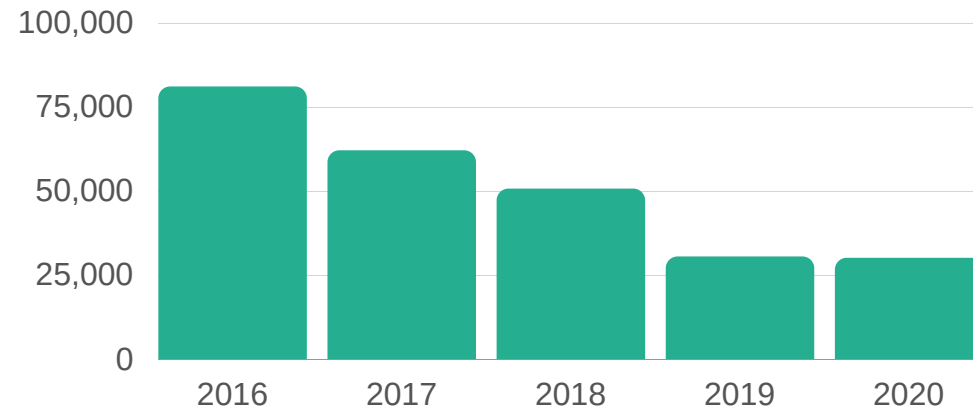

Grants Given

The graph below shows the money in US Dollars we were able to distribute to the worthy causes we support

Donations Received

The graph below shows the money in US Dollars we were we raised thanks to you our loyal supporters.

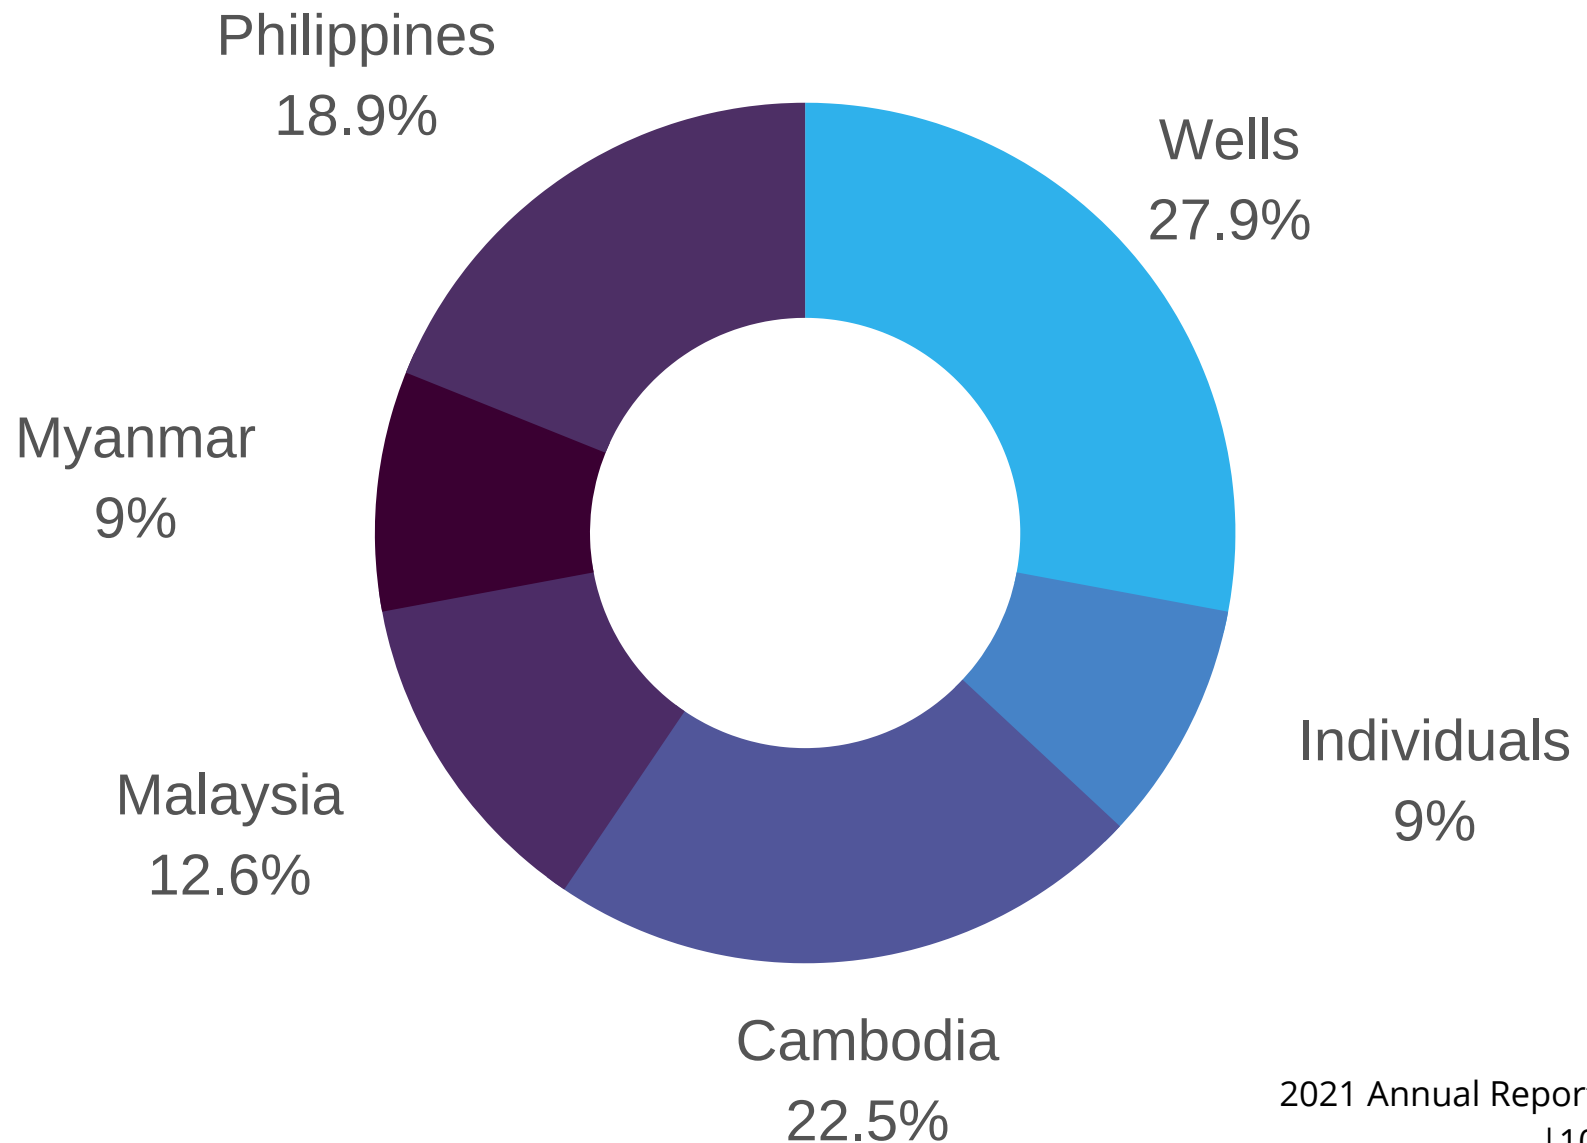

FY2019-2020 FINANCIALS

Revenue: \$60,000

The graph below shows how the money was distributed

99%

of expenses went
to projects

LOOKING AHEAD TO 2022

Developing an organic Greenhouse at SOS Children's Home in Cebu, Philippines. This will help feed the children in the community, teach them how to farm, garden, and create sustainability.

Building a kitchen at Wildflower Home in Chiang Mail Thailand.

Here compromised ladies will learn to cook, and then sell what they make in the local market.

HOW YOU CAN HELP

Help us help women and children in need.
Here are 3 ways you can lend a hand:

1. Donate

Make a financial contribution either one-time
or recurring at TWCCTW.org/donate

3. Sponsor

Contact us to discuss sponsorship
opportunities TWCCTW.org/contact-us

2. Volunteer

Volunteer to join us on our next trip
to SE Asia TWCCTW.org/volunteer-us

THANK YOU!
