Message from our President

Can you imagine going through life never having a chance to live your dream and share your gifts with the world?

So many of those less fortunate never do. TWCCTW's quest is to give as many children and women in need the opportunity to spread their wings and fly.

Since 2008, small groups of professional speakers from around the world travel to SE Asia to speak, serve, and experience the culture.

We host leadership conferences to raise money to donate to local projects that fit our criteria. Throughout this report, you'll learn more about the exciting projects we're involved in.

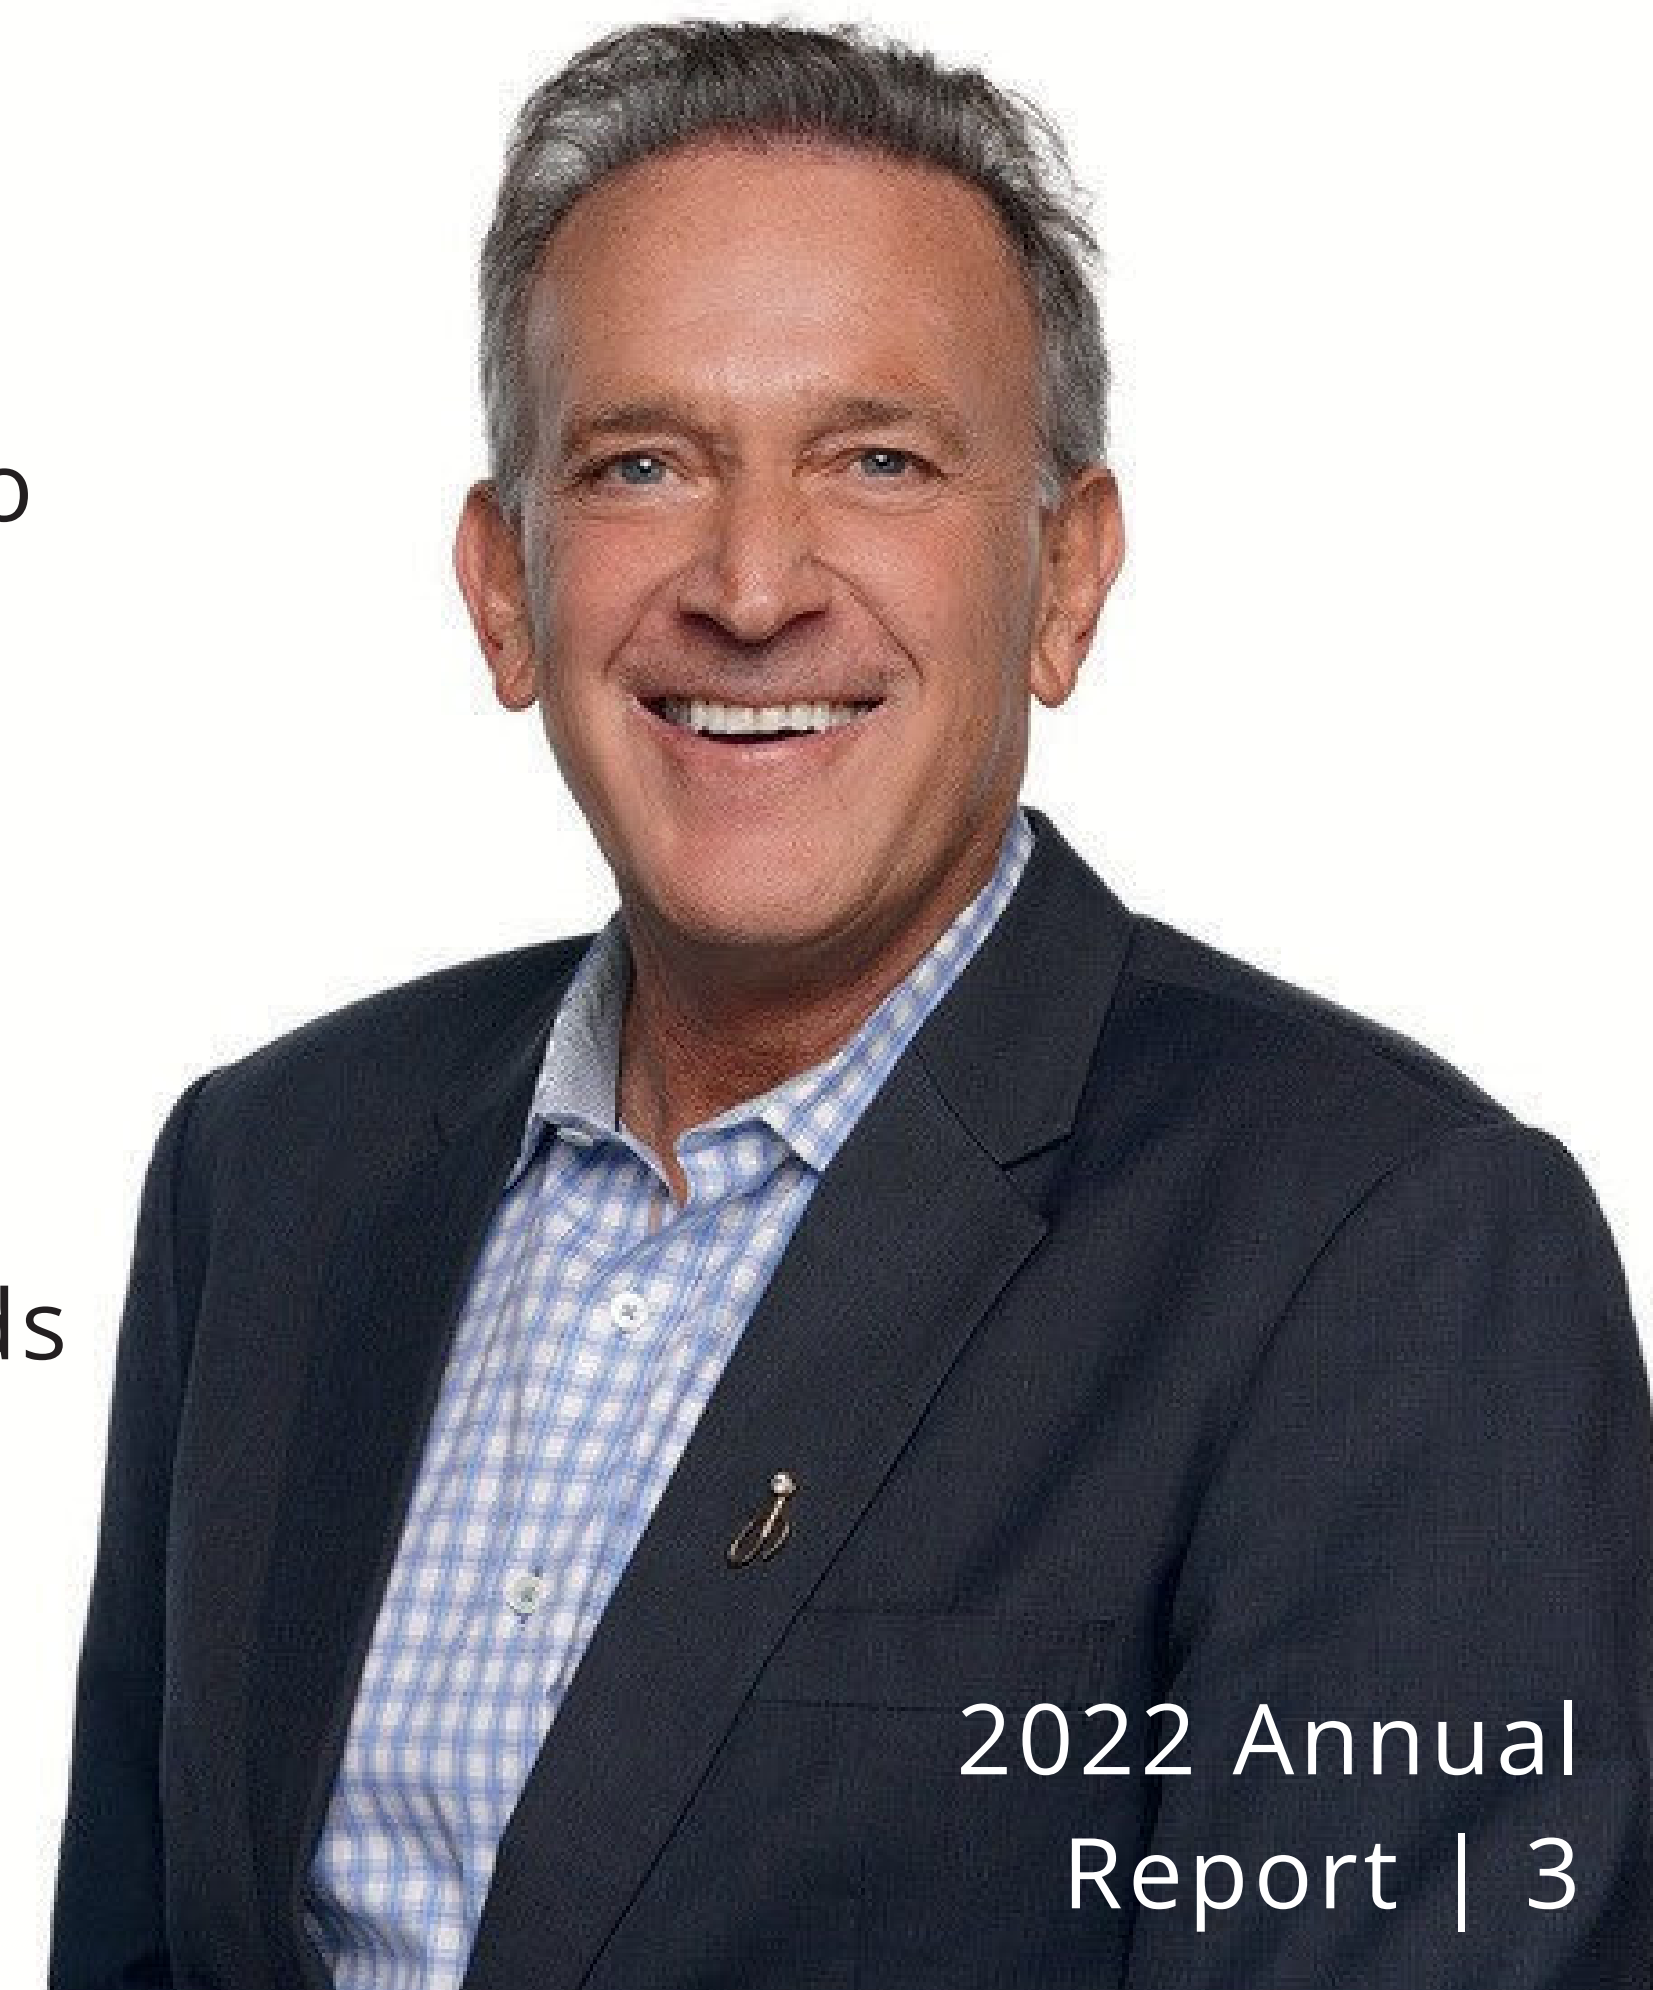

Like most non-profit organizations, COVID severely impacted our financial resources since we were unable to travel to raise funds. This means we need to rely on our trusted and generous donors to continue to support us.

We are grateful and appreciate your generous help and support over the last 10 years. It's only thanks to you that we can help support women and children in need.

As co-founder, Jana Stanfield reminds us, "We cannot do all the good that the world needs, but the world needs all the good that we can do."

Scott Friedman

Scott Friedman
President

WE'RE ON A MISSION

To empower and educate women and children in Southeast Asia.

OUR WORK

How we choose the causes and projects we support...

They must fit within our mission to empower and educate less fortunate children and women in Asia.

Over the years we've learned through trial and error to identify and support "champion" projects that provide children and women opportunities to build confidence, competence, character, and most important, sustainability.

What these "champions" have in common is commitment, tenacity, and passion to provide a better life for those in need.

OUR CoHAMPIONS

- Speak English.
- Are fiscally responsible and transparent.
- Strive to create sustainability to depend less on outside resources.
- Are religiously inclusive.
- Are compassionate leaders.

Our overall focus is on social enterprise... helping children and women gain skills to better their lives, families, and communities.

TWCCTW Project:

Dental Program in Rural Cambodia

Together We Can Change The World (TWCCTW) has provided a grant to the Cambodia Community Dream Organization (CCDO), to establish a dental program for school children in rural Cambodia near Siem Reap.

The grant benefits more than twenty primary schools and over 5,000 children. TWCCTW Board Member Steve Tillis, a retired dentist, screened over 120 children. 80 percent had visual dental decay, and a significant number were in pain. The first part of the program involves establishing a dental hygiene program in the schools. Teachers are trained to teach and provide preventative dental hygiene. The students are taught about the need for good oral hygiene. Each school day the students, under supervision, brush their teeth with toothbrushes provided through the grant. The second part of the program is dental screening by a trained dental professional at each school. Children who are in pain or have severe dental needs are taken to the Siem Reap Hospital Dental Clinic for the necessary dental treatment. This dental program has been a tremendous success in eliminating dental pain and establishing a preventative dental hygiene program to help eliminate future dental disease and keep children from becoming dental cripples at a young age.

Uniforms for Hope

Maureen Maloof, founder of Uniforms for Hope, and her sister Dr. Catherine Maloof with a little help from TWCCTW, provided 1,000 Uniforms for the Cambodian Community Dream Organization (CCDO) - one of TWCCTW's favorite causes.

The materials were bought and sewn in Cambodia providing jobs for local women.

Clean Water Water Wells

Each water well & filter provides a family and its immediate neighbors with easily accessible hand pumped clean water. Families can now grow a vegetable garden and raise chickens to increase their children's nourishment with fresh eggs, as well as sell them to neighbors. With clean water, families' health and hygiene improve dramatically. To date, we have provided over 250 water wells serving more than 1,000 people.

Many thanks to Karin Hurt & David Dye for providing over half these wells with your "Winning Well" program.

Family Story

Before Mr. Touy Eourch received his own fresh water well, he fetched water from his neighbor's well which was a 20-minute walk. Due to the lack of clean water, his family regularly suffered from waterborne diseases causing health problems and financial hardship because they needed loans to get the necessary medical attention.

Thanks to the invaluable support of TWCCTW with Kforce Splash, the Eourch family now has their own well and no longer depends on other, possibly contaminated, water sources.

Our latest projects include...

Starting four technology centers in Myanmar, Malaysia and Cambodia to teach marketable skills.

Over the past 5 years in Kuala Lumpur, Malaysia, we've partnered with Cisco, to develop a meaningful curriculum to enable 500 refugee children to go to school every day. The addition of the technology center offers them more practical skills.

2022 Annual Report

OUR IMPACT

Provided over
250
fresh water wells
serving more than
1,200 people

Funded

Mobile Hospitality truck
and Mobile Classroom
to go deep into Philippines
provinces to educate and
train villagers

Provided over
200,000
meals to families in need
with help from our partner
"Food for Good"

Charlyn Bortalba, TWCCTW's first nursing scholar graduated in 2021 and is currently serving as a nurse in Cebu, Philippines.

OUR IMPACT

5,000

children benefited
from the dental program

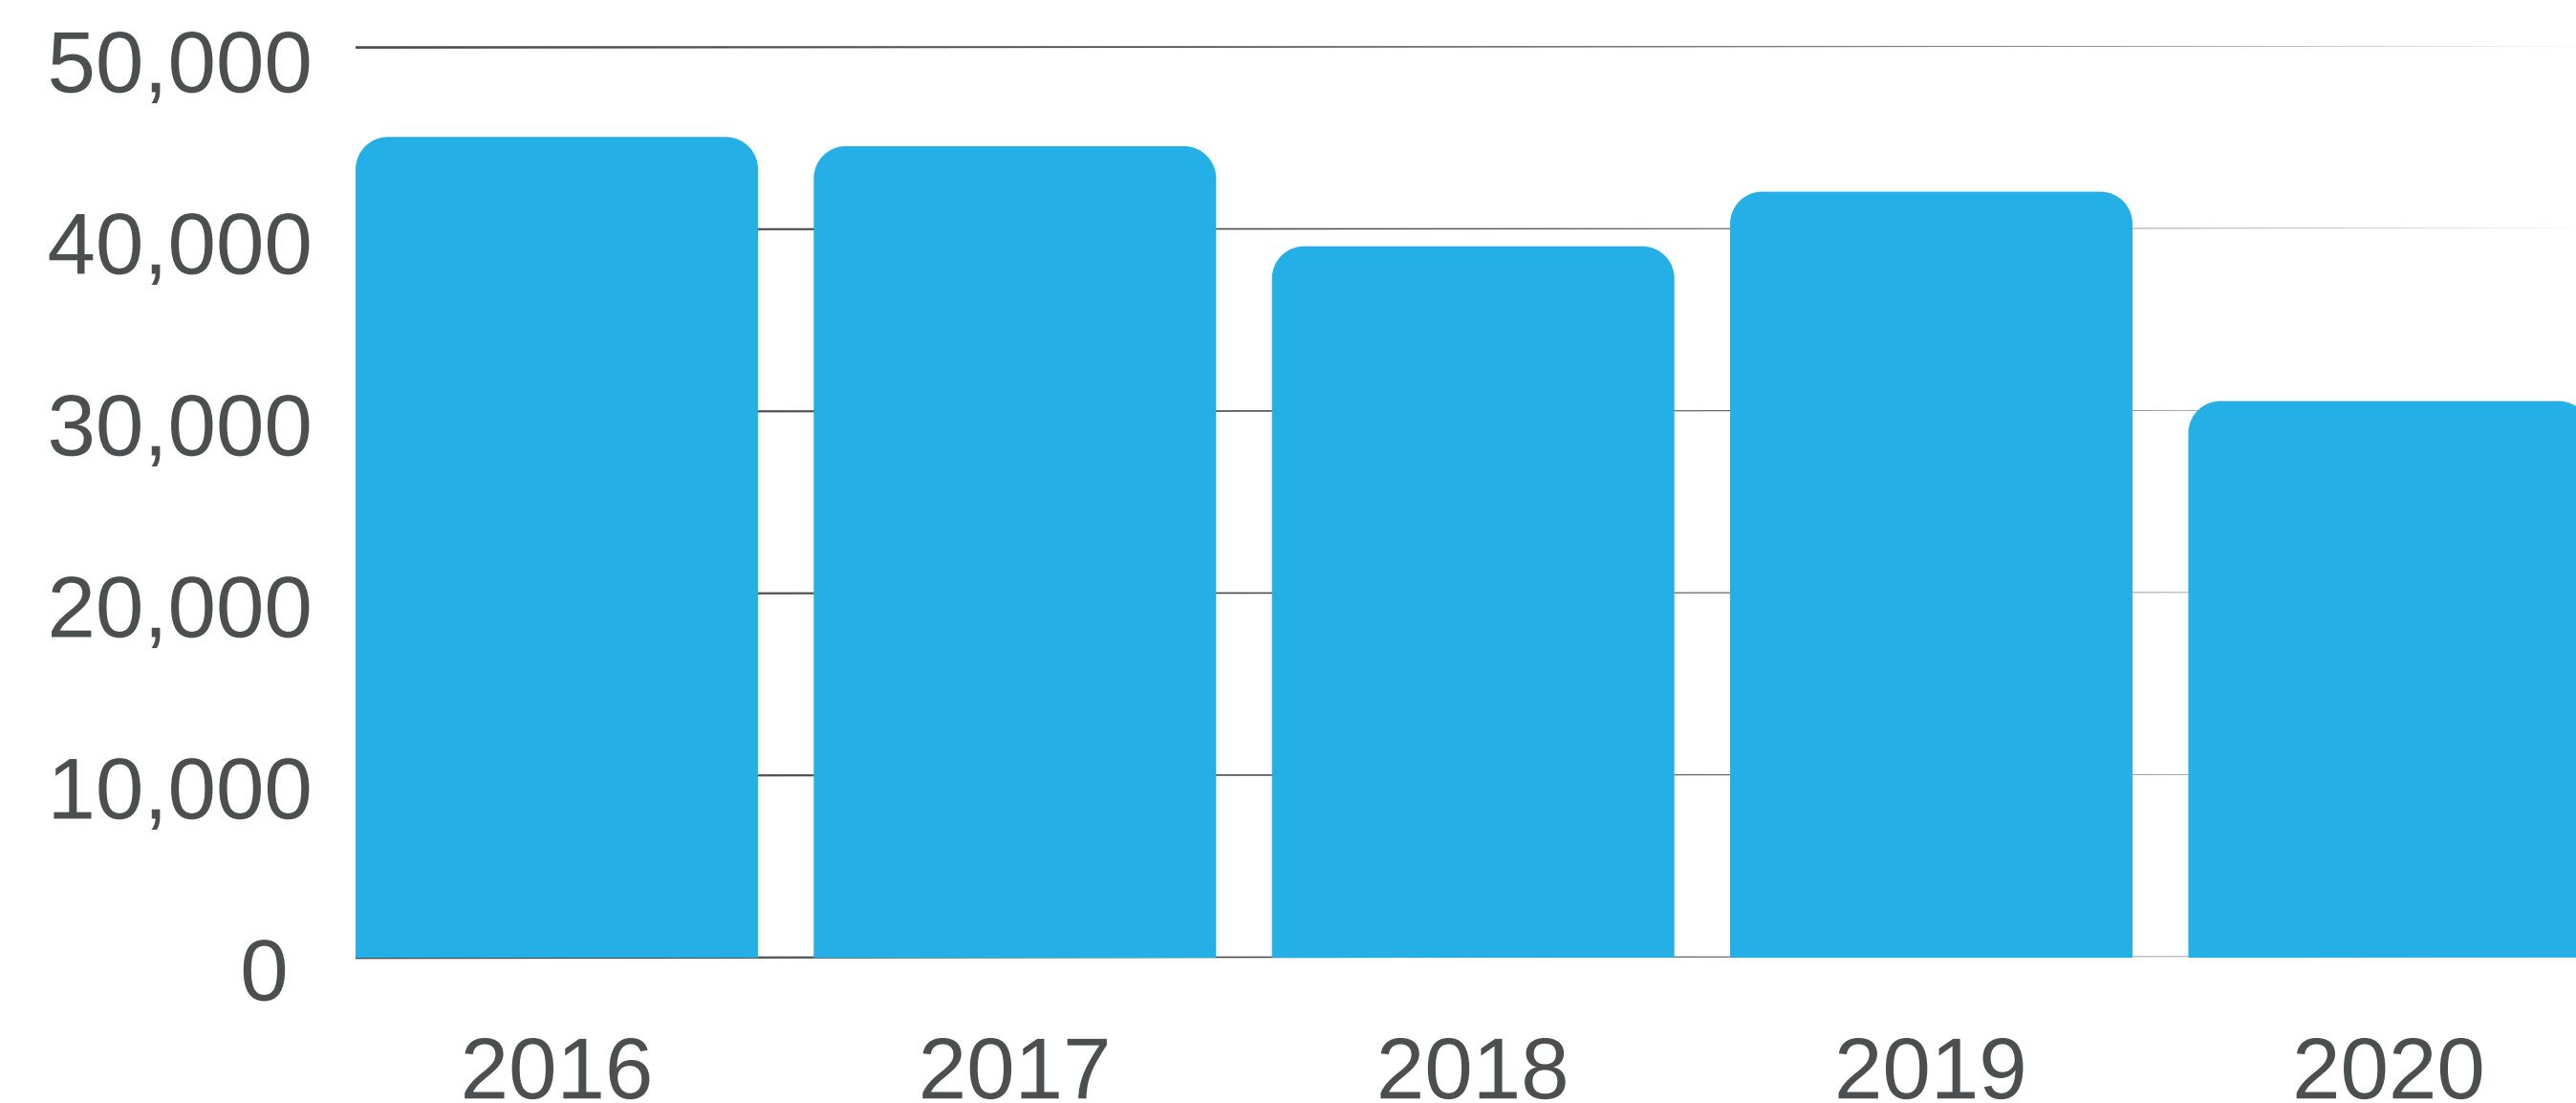

During
the Covid pandemic
TWCCTW gave over \$20,000
to food-insecure
communities.

Started
4

technology centers
and provided
computers and ongoing
training

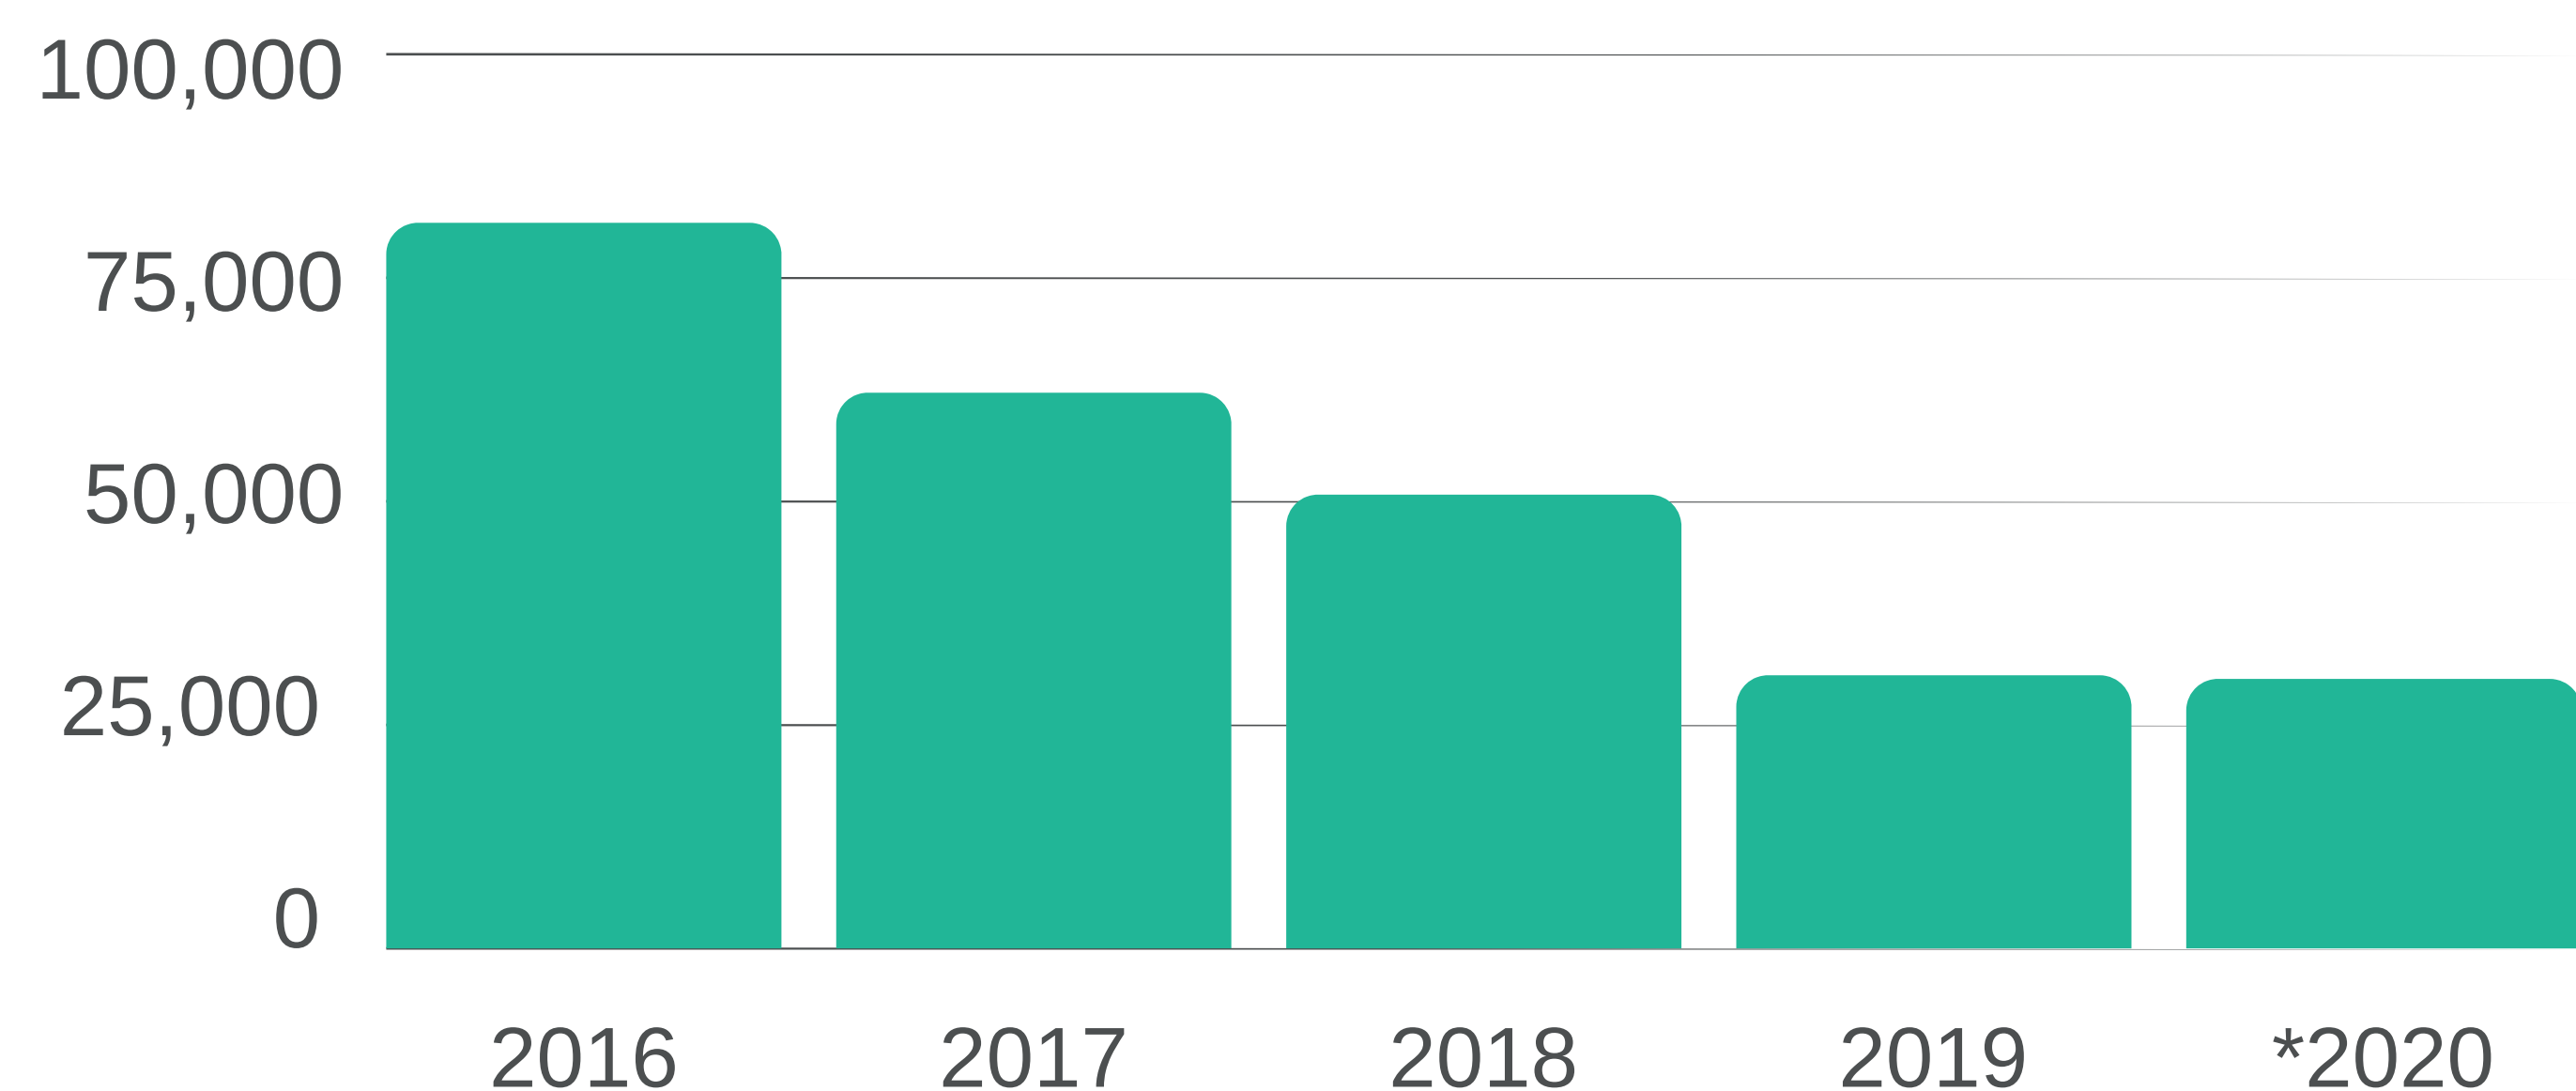

Grants Given

The graph below shows the money in US Dollars we were able to distribute to the worthy causes we support.

Donations Received

The graph below shows the money in US Dollars we raised thanks to you, our loyal contributors.

*Because of COVID our major source of funds was impacted as we were unable to take our "voluntour" trips in 2020 and 2021

FY2019-2020 FINANCIALS

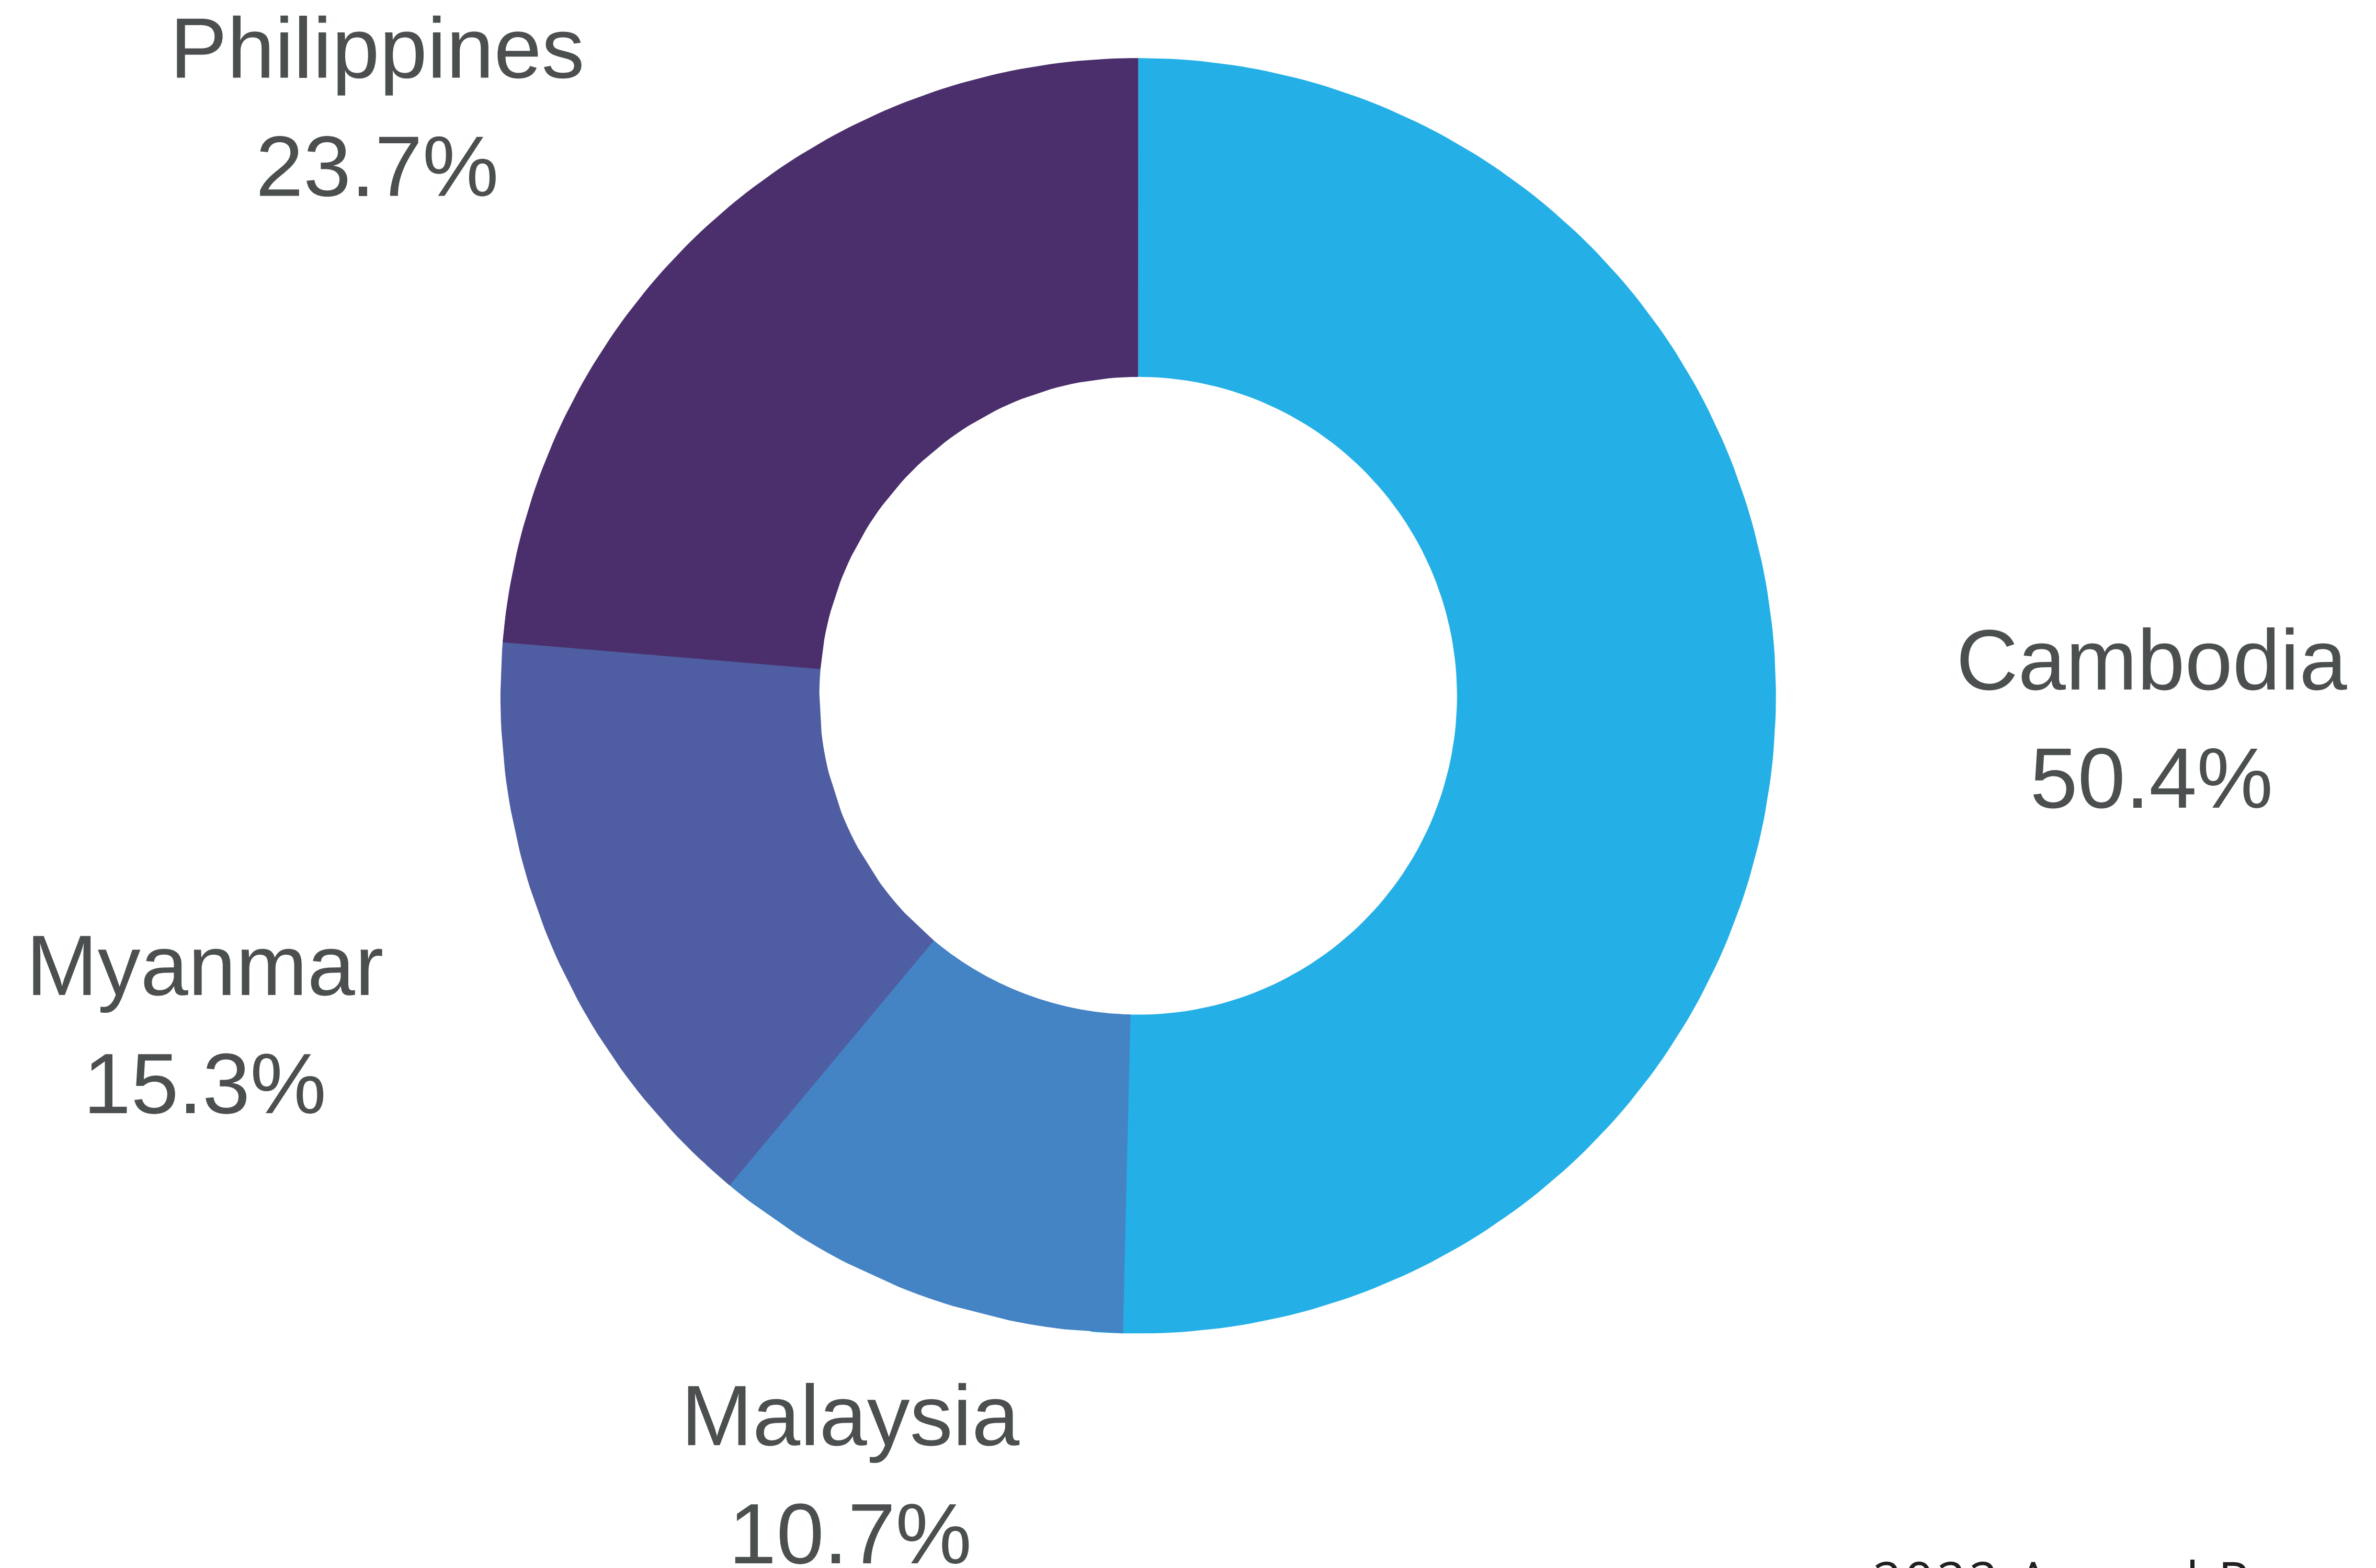

Revenue: \$60,000

The graph below shows how the money was distributed

99%

of donations go to
our projects

On to the numbers for
transparency. Use built in
charts in Canva or upload
your own charts.

LOOKING AHEAD TO 2022

Developing an organic Greenhouse at SOS Children's Home in Cebu, Philippines.

This will help feed the children in the community, teaching them how to farm, garden, and create sustainability.

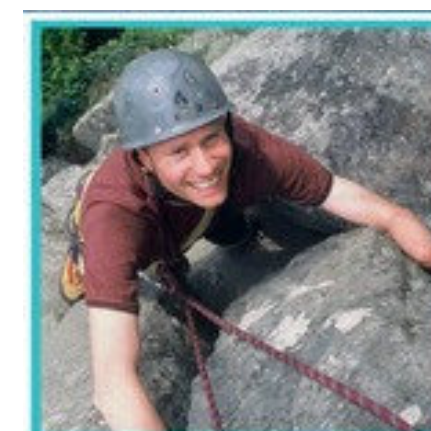

PANDEMIC RELIEF

Created BOUNCE BACK

Each week for 13 weeks
we were inspired to
bounce back
by a champion who through
courage and determination
made a positive difference
in the world.

Together We Can Change The World
and Leaderonomics present:
Bounce Back
BETTER. STRONGER. SMARTER.
*A Global Symposium to help you learn and grow
while supporting under-privileged communities in Southeast Asia*

PANDEMIC RELIEF PROJECTS

Angel Fund Project

The Livelihood program

Provides working capital to help fund small businesses. The first 10 recipients who received the grant in Bacolod City, Philippines.

The Rice Program

Provides large sacks of rice, a food staple in the Philippines, to food insecure families. The rice is enough to help feed a family for a month. So families know that at least for a month, they will keep hunger at bay. Most grants were delivered in Luzon, Visayas, and Mindanao regions.

Relief Assistance for Super Typhoon Odette

Last December 25, 2021, our Together We Can Change The World volunteers delivered relief assistance consisting of water, packed meals for kids, fruits, and basic goods to several affected Barangays in Kabankalan City, Negros Occidental. Kabankalan is one of the many cities and municipalities in Southern Negros hard-hit by Typhoon Odette. Please click on this link to watch the video . <https://youtu.be/LqB7cWBN2Cw>

Medical Missions

On February 6, 2022, Together We Can Change The World volunteers, went to Sitio Ondol, Barangay Camugao, Kabankalan City, Negros Occidental, the area Typhoon Odette destroyed on December 17, 2021. The team consisted of a doctor, two pharmacists, and 11 volunteers. The team conducted a feeding program, and a medical mission, and distributed relief goods.

Please click on this link to watch the video. <https://youtu.be/-y5GoFYk-wo>

Last March 26, 2022, Together We Can Change The World Founder Scott Friedman and volunteers went to four communities in Kabankalan City for a medical mission, a feeding program, and to distribute clothing. The Together We Can Change the World organization funded the project, which was a big success. More than 300 families were fed while volunteers made sure they followed pandemic protocols to keep everyone safe and healthy. Please click on this link to watch the video :

<https://youtu.be/1GUNdGztQdc>

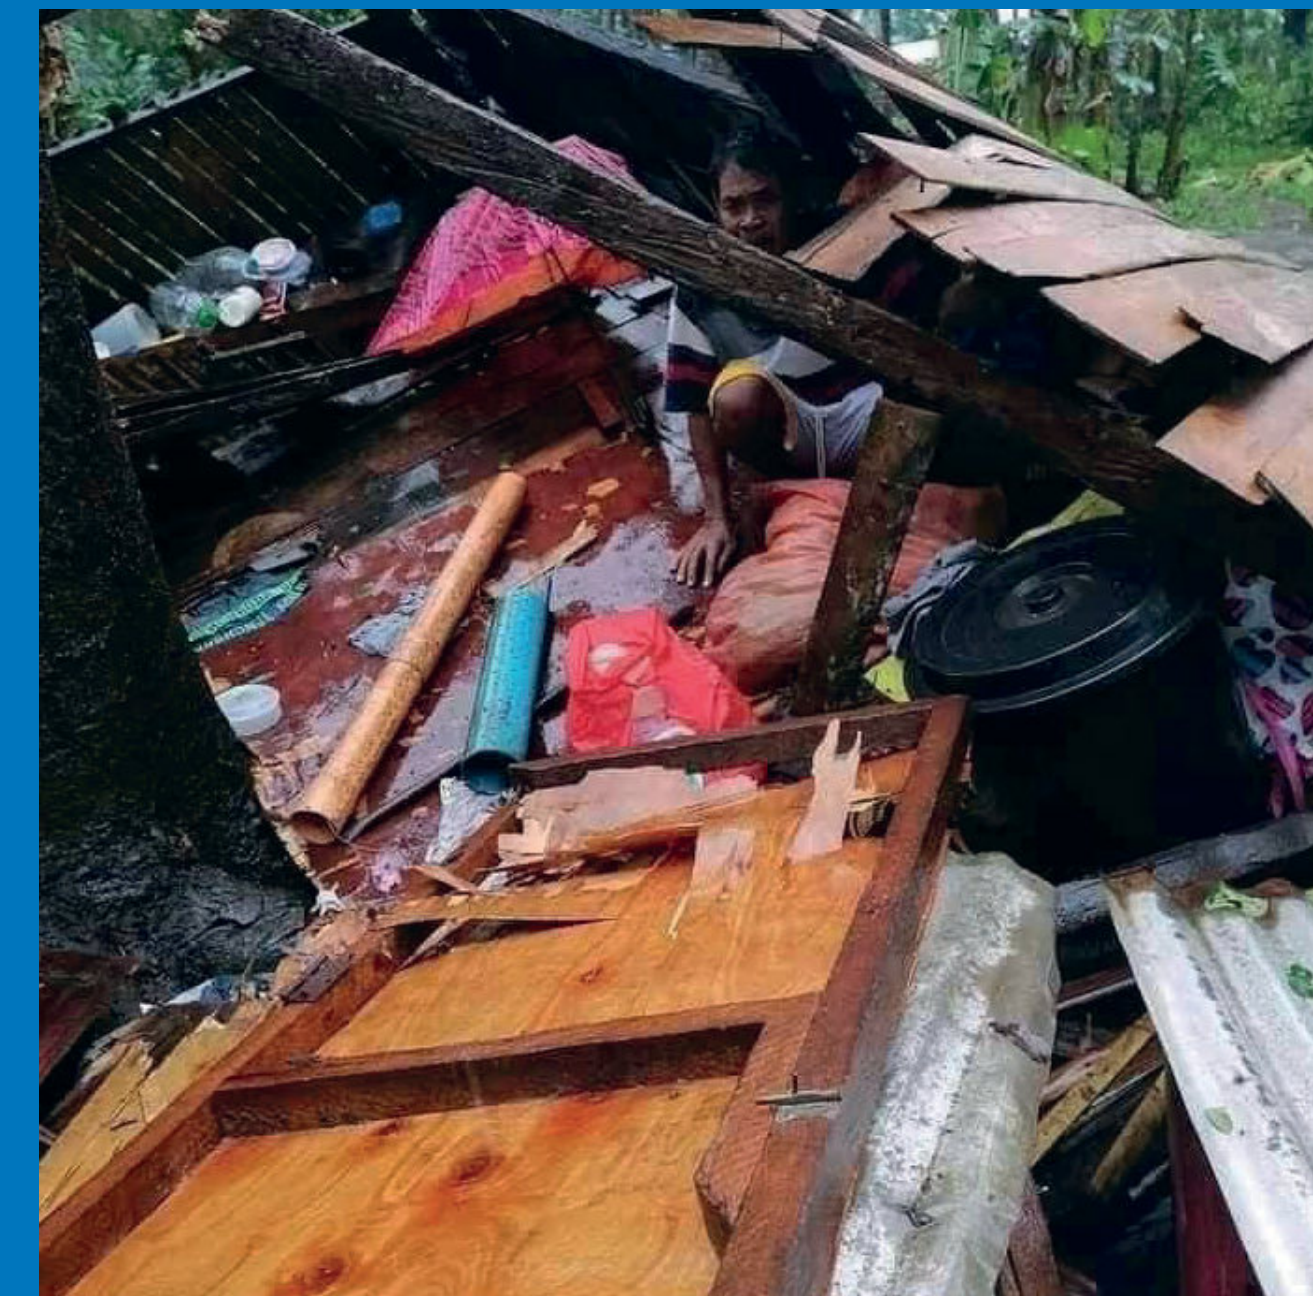

PANDEMIC RELIEF ASSISTANCE

Making life normal for students in the rural areas, TWCCTW provides printers for modules in Taytay Integrated School, Guinacot Integrated School, and Hagnaya Elementary School, Hagnaya, Carmen, Cebu, Philippines.

Super Typhoon Odette struck the Philippines last December 2021, leaving many homeless. With this, Together We Can Change The World grants relief assistance to the people of Cebu City, Philippines. These include food, groceries, clothing, and financial assistance to repair their houses.
